The diagram illustrates a dependency or call relationship. On the left, two white rectangular boxes represent navigation callback functions: 'cl\_move\_base\_z::CbNavigate Backwards::onEntry' (top) and 'cl\_move\_base\_z::CbNavigate Forward::onEntry' (bottom). On the right, a gray rectangular box represents the 'cl\_move\_base\_z::odom\_tracker::OdomTracker::setStartPoint' method. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both navigation callbacks invoke the 'setStartPoint' method of the 'OdomTracker' class.
