

```
sm_dance_bot_strikes  
_back::f_pattern_states  
::StiFPatternRotate1::staticConfigure
```

A diagram illustrating a static method call. A grey rectangular box on the left contains the code snippet for the `staticConfigure` method of the `StiFPatternRotate1` class. A blue arrow points from this box to a white rectangular box on the right, which contains the code snippet for the `configure_orthogonal` method of the `SmaccState` class, showing how the former method delegates the call to the latter.

```
smacc2::SmaccState  
< StiFPatternRotate1  
< SS >, SS >::configure  
_orthogonal
```
